Contract Value:

£1.1m

Project Architect:

Chris Milligan

Form of Contract:

Traditional JCT Contract with Quantities

Completed:

2011

Refurbishment of existing laboratories with an accelerated programme of works to allow completion in non-term time.

To accommodate approximately 120 students and staff the 9 laboratories include wet chemicals, forensics, chromatography, molecular spectroscopy and a Built Natural Environment lab with related chemical stores and offices.

Specification included laboratory grade furniture, fume cupboards as well as accommodating tailored benching for disabled students.
