

PRACTICE ANNOUNCEMENT.....

The practice is delighted to announce the appointment of Wendy Corrigan as a partner with effect from January 2015.

Wendy joined us at the beginning of 2008, having previously worked in various local private practices since her graduation and registration in 1996.

Appointed as an Associate in 2010, Wendy went on to complete her post-graduate Master of Science in Building Conservation (with Distinction) at Heriot Watt University.

As a result of her experience with us on several high profile restoration projects such as the conversion of Govan Police Station and St Mary's Church campus in Lanark, she became an RIAS Accredited Practitioner in Conservation in 2013.

She now leads the in-house conservation team and is regularly involved in restoration, repair and conservation projects throughout central and west Scotland as well as housing projects as far afield as Orkney.

Her appointment strengthens our management team which now boasts 3 RIAS Accredited Conservation Architects, and ensures continuity of the delivery of traditional service and contemporary design.
