

DOORS OPEN DAY

We are again proud to be one of the main sponsors of the Doors Open Day event in Glasgow.

Running from **Monday 14th to Sunday 20th September** there is plenty of opportunity to visit some of Glasgow's most interesting buildings, streets, parks and join in the planned events.

How about booking a place on the roof-top tour of the Wylie Shanks Architects designed building at the City of Glasgow College, 60 North Hanover Street?

See the website <http://glasgowdoorsopenday.com/> for more information on timings and venues.

DOORS OPEN DAY
Glasgow's Built Heritage Festival

FLYING HIGH

In a recent building conservation survey exercise we used the services of a 'drone' to help access otherwise inaccessible areas of the buildings at John Finnie Street in Kilmarnock.

This will assist greatly in early identification of necessary repairs, and improve cost certainty for the complete refurbishment of the building for East Ayrshire Council.

Easier and better than the traditional 'cherry picker'!

ENVIRONMENTAL COMPLIANCE

In our pursuit of best practice and practical energy conservation we are delighted to have recently achieved external certification to the ISO 14001 standard for Environmental Management.

This works in conjunction with our Quality Management System to ISO 9001:2008 and helps in achieving compliance for project bidding.
